

Q: How do I know if I will be registered under Country Qualifiers or Open Qualifiers?

A: Please refer to the pvpsports.gg homepage, under Regional Corporate League's 'How Does It Work?'

Q: If I take part in the Country Qualifiers, can I take part in the Open Qualifiers too?

A: No. Any individual may only register once as part of one team and this extends to both Country and Open Qualifiers (i.e. I am an employee from Singtel, I choose to register under a team from Singtel, I cannot register as part of another team in the Open Qualifiers or as part of another team belonging to another corporate partner).

Q: Who can I register with in my team?

A: At least 80% of your team must be registered full-time employees with the same company and at least 80% of them must be participating in the match at any single time (i.e. I am from Singtel and wish to take part in the Country / Open Qualifier, 8 out of 10 must be Singtel employees and at any single game being played, 4 out of 5 must be Singtel employees).

Q: How many players can I have in my team?

A: Any team must consist of a minimum of 5 players, but a maximum of 10. Any 5 players may participate in the matches in the PVP Corporate League but it must fulfil the requirement to have 80% of participating players be from the same company (i.e. 4 out of 5 players are from Singtel).

Q: Can a player substitute for another player during a game?

A: No. Players can be substituted in between matches but not during a match currently being played. Once a team selects its 5 players to take part in that particular game, these players must see the match to its completion.

Q: What happens if my teammate(s) resign from the company before our game(s)?

A: Your team will not be disqualified for having less than 80% employees from the same company but the team must still be able to deploy 4 out of 5 players from the same company to meet the requirement for your game(s).
